

## 2023 IMPACT REPORT

Dear friends,

Warm greetings from the Multiply222 Network! As we reflect on this past year, it is obvious that God has been doing amazing things. None of them would have been possible without your faithful support!

We have seen God multiply disciples, multiply leaders, and multiply churches. Lives continue to be touched and transformed.

We extend heartfelt gratitude for being integral to these accomplishments. Looking ahead, our vision remains unwavering: "Every believer a multiplier." As we step into 2024, we eagerly anticipate God's continued multiplication of our shared efforts.

In Gratitude,

Scott Vander Ploeg

## 222 **X** DISCIPLE

*"222Disciple is giving me the tools to be a disciple-making disciple. Rather than being in another program, I am seeing that God is calling me to be a part of a movement that began 2000 years ago and is still very relevant today!"*

- Scott Los

The Lord continues to multiply the reach of 222Disciple. We currently have well over 1,100 people partnering together to make disciples who make disciples. We are grateful for each life and church that uses 222Disciple as a personal and community-wide method for ministry.

### Here are some of the key growth areas in 2023:

- Our website has been rebuilt from top to bottom! New courses and new options for group/church subscriptions have been added.
- Disciples can now use a proven method of meditating on Scripture which directly coincides with the weekly topics of the Introduction to Christianity course.
- Spanish and Hausa versions are now available. Portuguese and Korean translations are in process with anticipated release dates in the Fall of 2024.
- We are planning a conference this May in Nairobi, Kenya to train 30 Nigerian, Kenyan, and Ugandan pastors in 222Disciple and the Public Reading of Scripture!

## Winter Garden Church and Preschool

## CHURCH PLANTING INITIATIVE

Last year brought great excitement as we celebrated the launch of multiple new campuses. Our commitment to leverage our Christian school as a key mechanism for local church planting has been redoubled. We've successfully opened a second church campus in Port Saint Lucie at our new middle school. It is already drawing a regular attendance of nearly 150 people!

In the Greater Orlando area, two new churches have been established. One is a Korean-speaking congregation. The other, in Winter Garden, launched a new preschool in January 2024.

By God's grace, we were also able to plant two more churches in Nigeria, bringing the total there to 11.

Nigerian Church Plant

PGA West Church and Middle School

*"The Church Renewal Lab helped us identify what was really going on in our church, and they helped us gain the traction we needed to get out of the rut. We were able to understand what church health is about. The practices of the Renewal Lab led us to this foundation of dependency on God"*

-Rev. Matt Hochhalter

## CENTER FOR CHURCH RENEWAL

2023 was a banner year for the Center for Church Renewal! Leading the way was a Lilly Endowment Grant we received that will allow us to serve Latino churches, Navajo churches, and Next Generation Renewal Leaders. We are calling this work: New Horizons. It is a whole new dimension of bringing renewal and revitalization to the local church!

*"I knew I had to do something different but I had no idea what to do or where to turn...the Renewal Lab was the first breath of fresh air blown into that discouragement...Change is hard, and I don't yet know how it will turn out—but now I have resources and help, and hope."*

-Rev. Chris Rea

We currently have two cohorts totaling 10 churches that are on the two-year journey of the Renewal Lab, our flagship ministry. We have even more churches benefiting from our Legacy Program, our Doctor of Ministry Program, 222Disciple, and our ongoing assessment and coaching.

## Annual CCR Banquet

The mission of Sunlight Community Church, to "Know Jesus. Make Jesus Known. Live a Jesus Life," saw remarkable achievements in 2023. We celebrated over 60 new baptisms and welcomed over 80 new members to our church family. Furthermore, we joyfully report that over 110 individuals have been discipled, signifying not just a growth in numbers but the formation of 110 new relationships and potential future church leaders.

In our pursuit to expand our outreach, we initiated a new worship service in a local nursing home, established a jail ministry worship service, and launched three new campuses across Florida. Our commitment to community service has enabled us to assist over 800 families by providing food for those facing food insecurity. This is in addition to addressing weekly benevolence requests to support individuals in our local community.

*Bi-annual beach Baptism. 18 people gave their lives to Christ this past Fall.*

God's providence has surpassed all of our hopes and dreams in 2023. We were blessed to open not one, but two new campuses, bringing our total to four locations of Christ-centered learning. Our middle schoolers settled into our PGA campus the week before Christmas break. They participated in our first annual "Spiritual Emphasis Week" centered on strengthening their relationships with Christ.

*8th grade class cutting the ribbon at our new PGA West Middle School campus*

In Winter Garden, we participated in a Fall Festival on our campus. We met many wonderful families in the community who are excited about the addition of a Christian preschool in their area. Our St. Lucie West and Lake Worth campuses continue to be filled to capacity with extensive wait lists. Our hearts are filled with joy and excitement as we minister to all new families!

# 222 LEADERSHIP SEMINARY

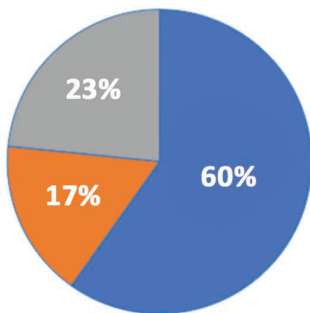

Our very first class of students praying for Dr. Greg Hauenstein, the Director of 222Leadership Seminary

Launched in January 2023, 222Leadership Seminary aims to equip leaders for ministry, following the mandate of Matthew 28 to make disciples globally. Employing the model of 2 Timothy 2:2, students are trained to effectively mentor others. With an overarching goal of reaching the world through training thousands.

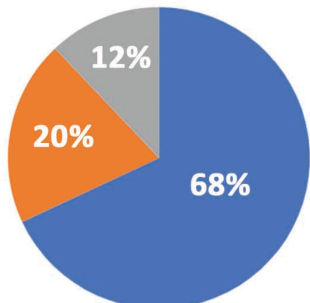

The seminary started with 16 students, increasing to 24 within a year, with plans to double annually. In partnership with Calvin Theological Seminary, they offer an accredited Master of Arts in Christian Leadership (MACL), emphasizing affordability and accessibility. The focus extends to church and Christian school planting, leading to the development of a Teacher's Academy for a Master of Arts in Christian Education (MACE). The aim is to prepare outstanding Christian school educators and administrators.
